

COLOUR RANGE

These are the colour choices for Parapan®. Parapan® is the finest quality high gloss solid acrylic available and the high gloss finish is on both sides of the material. Doors, drawer fronts and panels are bespoke - made to any size to suit your design requirements. Parapan® is also extremely workable as it can be thermoformed into curves and machined like wood. Parapan's durability and moisture-resistance make it especially suitable for kitchens, bathrooms and many commercial environments. Available with a choice of interesting and unusual edge treatments.

Parapan® may vary slightly from printed colours
